LORD & NAGLE COMPANY

BOSTON

GENERAL TEXTILE SUBJECTS.

Air Conditioning 188
Air Conditioning System. The Carrier 188
Analysis of Cloth 580
Baling Press. Hand (Sullivan Machinery Co.) 127
Ball Bearing Exhausters 125
Beam Warpers. Measuring on 105
Belts and Belt Transmission. Problems in .. 392
British Khaki for American Soldiers 543, 656
Canadian Tariff. An Englishman's View of the 658
Cloth Spreader. An Improved 705
Clothiers' Guild 462
Cloth Drawer's Craft. The 719
Commercial Cassettes 396
Commercial Fibers. New 526
Conditioning Ovens 375
Contract in the Yarn and Cloth Trade. A Standard 551
Conventions and Associations. Textile 548
Counting Machines in Textile Mills 251
Cross Quiller. High Speed 130
Dressing. Hand 88
Dressing Room. The 222, 360
Drill. High Speed Radial 493
Dumping 170
Economics of Short Time 362
Economizers. (B. F. Sturtevant Co.) 602
Electric Power Applied to Textile Factories.. 448
European Mills. Short Time in 66
Flax in Europe and America 85
Franco-British Exhibition. Textiles at the .. 664
Fire Extinguisher. The Chemical 600
German Agreement. Under the 67
Hard Water. The Handicap of 389
Humidifier. The Turbo 252
Humidity in Textile Mills 233
Hydro Extractor. An Electric 709
Japan Hits Lancashire. When 304
Immigration in the South 538
Impressions of an American Abroad. The .. 667
Information Wanted 297
In Germany 351

.T36

Lawrence Textile School. The New 181
Lubricating Oils. Possible Economics in 392
Luster Effects on Fabrics 139
Measuring and Marking Fabrics. A New Machine for 495
Mill. Plan of a Linen Weaving 352
Million Dollars a Day. A 431
Mills in Chicago. Textile 648
Only Remedy. The 712
Patents. Compulsory Working of ...169, 444, 647
Pencil. The Stencil 497
Power Plant. The Factory 393
Pumps. Motor Driven 260
Results 83
Right Hand of a Textile Machine. Which is the 235
Russian Mills. Conditions in 442
Seasonable Fabrics 178, 311, 439, 558, 669
Setting for Cards 234
Shoddy Clothing 642
Silent and Roller Chain. Tool for Use with Renold 499
Size of Yarn. Variation in 508
Sliding Scale. The Fall River 301, 540, 642
Strange Bedfellows 641
Tariffs. The Philippine and Other 63
Technical Education. The Half Time System in 65
Textiles and Tariff 537
Trade of Cuba. The Foreign 69
Trade-Marks in China. Stealing 541
Uneven Yarn 575
Value of Textile Machinery. Market 350
Wake Up 299
Watchman's Clock. The Magneto 500
Washington Notes 186, 313, 441
Water Heater. The Geyser 236
Water Regulator. Feed 261
Wider Markets for American Textile Mills 70, 167

Cotton.

Association of Cotton Manufacturers. American 83, 315
Association of Cotton Manufacturers. National 83, 192, 557, 667
Bagging for Cotton Bales 356, 458
Baling of Cotton. The 66
Carding and Spinning Rooms. In the 674
Conference at Manchester. Cotton 645
Cotton. Colonial 68
Cotton Comber. An Improved 128
Cotton Exchange. A New England 172
Cotton Exchange. The Reform of the New York 65
Cotton Goods. The Finishing of 132
Cotton Industry in Lancashire. The 305
Cotton Machinery. Production of 234
Cotton Manufacturers "Straw Vote" on Amalgamation. Members of Two Associations 651
Crepes. Regarding 476
Drawing Frame. The New (Mason Machine Works) 603
Egyptian Ginneries 433
English Spinners Not to Grow Cotton in the U. S. 171
Europe and the American Cotton Supply 434
First Cotton Mill in the United States. The 668
Gambling on Cotton and Stock Exchanges .. 654
Glue for Cotton Piece Goods 107, 478
Goods in the Philippines. Cotton 713
Grade Difference for Future Contracts. Methods of Establishing 552
Guide for Spinning Frames. A Thread 349
Labor in Indian Cotton Mills 649
Lancashire and the Cotton Supply 644
Lisle Yarn 689
Manufacturing in China. Cotton 606
Marketing Cotton 659
Mill Constructions. Recent Developments in English 100
Mill Organization. Cotton 75, 571
Model Loom. The L (Draper Co.) 709
Plans for Richmond Conventions. Elaborate 176
Saddle for Spinning Frames. A 579
Spinning Trust. An English 102
Thread Guide. The Improved Adjustable (I. E. Palmer) 397
Thread. The Price of 67
Toweling. Crash 109
Warehousing of Cotton. The 84
Warp Compressor for Slashers. A New 127
Warp Drawing Machine. The American 258
Way to Reform. The 177
World's Cotton Census. The 300
Whorl for Cap Frames. A 95
Yield of Cotton. Average 551

Woolen and Worsted.

Apollo Oil for Wool 399
Arachidelle 497
Association of Wool Manufacturers. National 560
Association of Woolen and Worsted Overseers. The National 335
Canadian Woolen Industry has Been Ruined. How the 175

Mills Always Have Bad Work. Why Some Woolen 684
Oil Spots in Worsted Goods 92
Oiling Wool 456
Packing of Wool. The False 306
Packing Wool. The Goldsbrough, Mort Process of 369
Preparing Frames. A Clearer for 473
Ring Doffers on Woolen Cards. Changing .. 105
Rolling of Goods on Finishing Machines 236
Shuttle. A New 457
Shuttle Check and Release Device. A 355
Size of Yarn. Variation in 372
Steam Blowing Machine for Luster Finish. An Improved (Paul Klug Machine Works) 255
Style Suggestions for Woolen Manufacturers 74, 180
Wool Conference. A National 303
Wool Production and Consumption 432
Worsted Top. Finishing 468
Wrinkling Woolen Goods 686
Yarn of Uniform Size. Process for Making.. 677

Silk.

Artificial Silk 304
Calculating Length of Silk Warp 689
Electric Motor in the Silk Industry 264
Reelers. Silk 67
Silk Culture 537
Silk Dyers' Trust. The International 538
Silk Thread. Finishing 724
Smoothing Device for Cloth Beams. A 569
Thrown Silk. Regarding 581

Knitting.

Brake for Knitting Machines. A 246
Braid in the United States. The Manufacture of 241
Braiding Plant. Equipment of a 109
Cam Adjusting Mechanism. A 711
Clamping Knit Goods 240
Cork Inserts. A New Adaption of (National Brake & Clutch Co.) 601
Cost in a Small Hosiery Mill 237
Cutting Press. The Hydraulic (Tolhurst Machine Works) 493
Fancy Knitting. Designs for 116, 592, 697
Finishing Machine. Knit Goods (Consolidated H. S. & L. M. Co.) 384
Full Fashioned Knitting 588, 694
Hosiery and Knit Goods Manufacturers' Convention 190, 338
Hosiery Fabric. A 114
Hosiery for Mercerized Yarn. Making ..479, 591
Hosiery. Knitting Ladies' 585
Knit Boucle Cloth. A 483
Knit Goods Manufacturers' Association 337
Knitting Bobbin. The New "Supreme" (Supreme Knitting Bobbin Co.) 488
Knitting Machine for Pile Effects. A 487
Knitting Machine Needle. A 482
Looping Hosiery 120
Machine for Ribbed Goods. Knitting 382
Manufacture of Hosiery. Price Paid for 700
Mill With or Without a Spinning Plant. A Knitting 378
Needle Protector. A 381
Rib or Tuck Stitch 120
Ribber for Underwear and Hosiery. The New "20th Century" Double Acting 246
Rubber Warp in a Braiding Machine 684
Sewing Machine. The New Lock Stitch (Standard Sewing Machine Co.) 700
Sizes of Cotton Underwear. Standard 485
Take-up for Circular Knitting Machines. A .. 380
Top Cutter. The Automatic Power (Robinhold Machine Co.) 498
Transferring Device. A 482
Washing or Dyeing Machine for Knit Goods and Garments. (American Laundry Machinery Co.) 699
Weight and Gauge of Hosiery 688

Dyeing, Bleaching, Etc.

Black on Hosiery. Oxidized Fast 235
Black on Mixed Goods. Fast 138
Bleaching Knit Goods. Defects in 373
Bleaching Knit Goods. Machine for 690
Cloth Extractor. A Continuous 722
Combustion of Dyestuffs. The Spontaneous 723
Cotton Yarn in the Skein. Bleaching 129
Caustic Liquors for Mercerizing Cotton Warps. The Strength of 507
Dye House at the Washington Mill. The New 404
Dye House for a Worsted Mill. A 613
Dyeing Khaki 719
German Color Industry. Profits in the 178
Hoist for Dye Vats. A 136
Hosiery Figure Dyeing Machine 403
Hosiery Yarns and Hosiery. The Dyeing of 266
Indigo Vat. A Patent 510
Kiers for Knit and Cotton Goods. Sizes of .. 121
Mercerizing. A Process of 718
Mercerizing Single Yarns 474
Mercerization in Cotton Yarns. Estimating the Degree of 610
Merino Goods. Bleaching 137
Names of Dyestuffs. The 644
Peroxide of Sodium. Bleaching Wool Stock 131
Plan of a Dye House 108
Reddish Shades on Oxidized Black Hosiery .. 687
Removing Fog from Dye Houses 616, 716
Resist Dyeing 714
Shrinkage in Bleaching 104
Sizing Solution. A 139
Steam in Dye Vats 511
Streaks in Cotton Fabrics 475
Sulphur Dyes on Half Wool 400
Temperature and Dilution of Dye Bath in Dyeing Woolen Yarn. Effect of 502, 608
Water Softener. The Bartlett 269
Yarn or Piece Dyed. Determining Whether Goods are 107

New Machinery and Processes.

Air Conditioning System. The Carrier (Carrier Air Conditioning Co.) 705
Baling Press. Hand (Sullivan Machinery Co.) 127
Cloth Spreader. An Improved (American Finishing Machinery Co.) 705
Cork Inserts. A New Adaption of (National Brake & Clutch Co.) 601
Counting Machines in Textile Mills. (C. J. Root Co.) 251
Cross Quiller. The High Speed (Oswald Lever Co.) 130
Cutting Press. The Hydraulic (Tolhurst Machine Works) 493
Drawing Frame. A New (Mason Machine Works) 603
Drill. High Speed Radial (American Tool Works Co.) 493
Economizers. (B. F. Sturtevant Co.) 602
Float Valve. The (J. & W. Jolly) 499
Finishing Machine. Knit Goods (Consolidated H. S. & L. M. Co.) 384
Fire Extinguisher. The Chemical (H. W. Johns-Manville Co.) 600
Hanger Box for Howard Grease. (Olney & Warrin) 395
Hydro Extractor. An Electric (Drenelt & Eisenhardt) 709
Knitting Bobbin. The New "Supreme" (Supreme Knitting Bobbin Co.) 488
Loom. The L Model (Draper Co.) 709
Measuring and Marking Fabrics. A New Machine for (Parks & Woolson Machine Co.) 495
Ribber for Underwear and Hosiery. The "New 20th Century" Double Acting (H. B. Taylor) 246
Sewing Machine. The New Lock Stitch (Standard Sewing Machine Co.) 700
Silent Roller Chain. (Link-Bolt Co.) 500
Steam Blowing Machine for Luster Effects. An Improved (Paul Klug Machine Works) 255
Stencil Pencil. The (A. J. Bradley) 497
Thread Guide. The Improved Adjustable (I. E. Palmer) 397
Top Cutter. The Automatic Power (Robinhold Machine Co.) 498
Warp Drawing Machine. The American (The American Warp Drawing Machine Co.).. 258
Washing or Dyeing Machine for Knit Goods and Garments. (American Laundry Machine Co.) 709
Watchman's Clock. The Magneto (Holtzer-Cabot Electric Co.) 500
Water Regulator. The Feed (Berry Engineering Co.) 261
